## LANGUAGES

Spanish - Ship

English

## SKILLS

Next JS

Typescript

Node js

Python

Php

Mysql

Mongo

Postgres

Docker

## PROFILE

During my undergraduate studies, I had the opportunity to work on medium-sized projects. This experience enabled me to acquire extensive skills in project management, work team coordination, and the implementation of innovative technological solutions.

I am constantly seeking opportunities to learn and grow in my professional career. In addition to continuing to develop my skills and knowledge in the field of systems and information engineering, I am always looking for new avenues to expand my expertise.

## ACADEMIC EXPERIENCE

### Full stack - Clone Messenger with Next Js

PERU

Jan 2023 - Abr 2023

- Contribution in the modeling and design of the database.
- I gained deeper technical skills in using Next.js, MongoDB, TypeScript, Tailwind, and Prisma.js.
- I improved query performance using the Prisma ORM and implemented instant messaging with Pusher.

### Full Stack - Clone Airbnb with Next Js

PERU

Nov 2022 - Jan 2023

- I made improvements in the database modeling.
- I gained a solid understanding of current technologies such as Tailwind, TypeScript, Next.js, and Prisma.js.
- I enhanced the query systems for Next.js APIs with the latest updates.

### Full Stack - The teacher attendance system with PHP

PERU

Jul 2022 - Nov 2023

- I collaborated with the UNSAAC University in Peru in the agile development of the system with very short delivery times.
- I gained experience in integrating SQL and MySQL databases with secure PDO queries.
- I introduced new concepts of integration with the MVC architecture pattern.
- I provided new ways to use libraries for creating reports with complete control over them.

## COMPETENCES

---

Commitment

Learning capacity

Technical Ability

Leadership

Flexibility

Creativity

Responsible

Problem resolution

Teamwork

Interpersonal Skill

Positive Attitude

## ACADEMIC EDUCATION

---

### **Systems and Computer Engineering, National University of San Antonio Abad of Cusco (UNSAAC)**

PERU

2018 - Present

I am currently an undergraduate student at the prestigious UNSAAC, which is ranked fourth in the national ranking of Peru. During my education, I have developed competencies in the field of software engineering, artificial intelligence, scientific research, deep learning, and machine learning

### **English, Unsaac Institute of Language**

PERU

2021 - Present

I have learned English up to an intermediate level, which has allowed me to communicate fluently in everyday situations and understand simple conversations in English. During my studies, I have developed skills in reading, writing, listening comprehension, and oral expression
